Rehoboth Beach Country Club

Delaware State Dental Society 302-368-7634
Registration & Admission

Pre-registration is highly recommended to ensure your space at each course. Complete the registration form and send to: DSDS, 200 Continental Drive, Suite 111, Newark, DE 19713, or if you are using a credit card, fax to 302-368-7669. The registration form is available on the website - www.delawarestatedentalsociety.org. For information, call 302-368-7634.

Doctors and Staff must register on separate forms. Please duplicate the registration form for additional enrollments. If forms are mailed/faxed together, the complete total may be sent as one check or credit card charge.

Registrations will be processed in the order received and confirmations will be returned by email one week prior to each course. Fees are payable to Delaware State Dental Society, in U.S. funds by check, money order, MasterCard or Visa.

Refund Policy

All requests for refunds or cancellations must be received in writing two weeks prior to the course. No refunds will be given after that time. Each cancellation and/or refund will incur a $35 administrative fee. Registration funds are non-transferable. FAX TO: 302-368-7669.

Inclement Weather

If any changes must occur in the program due to inclement weather, please call the Delaware State Dental Society at 302-368-7634 for a recording of an up-to-date status report.

Continuing Education

The Delaware State Dental Society accepts each full seminar day as six credit hours to meet State of Delaware continuing education requirements. The Board of Dentistry and Dental Hygiene requires all persons licensed to practice dentistry in the State of Delaware to acquire fifty (50) hours of continuing professional education credits every two (2) years. All dental licenses expire on May 31 of even years (e.g., 2016, 2018). Six hours will be given for ADHA and AADA credit as approved by each organization. The continuing education programs of the DSDS are accepted by the AGD for Fellowship/Mastership credit. The Delaware State Dental Society is an ADA/CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Continuing education certificates are distributed following the speaker’s presentation. The certificate is the only record of participation. It is the responsibility of each participant to maintain his/her personal record. Please come prepared with your ADA, ADHA and AGD membership numbers.

Disclaimer

In the interest of academic freedom, the Delaware State Dental Society has an obligation to present new information in the field of dentistry. Some of this knowledge may be controversial. Sponsorship of a CE course or demonstration does not imply endorsement of a product or technique. The DSDS reserves the right to change, without notice, courses, speakers or scheduling.

DSDS Council on Education Members

Dr. B. James Rogge, Chair, Dr. Karen Conlin, Dr. Jeffrey Felzer, Dr. Curtis Leciejewski, Dr. Monica Mehring and Dr. Nadine Vaughan
President – Dr. James Kramer
Dr. Uche Odiatu has a Doctor of Dental Medicine. He is a professional member of the ACSM American College of Sports Medicine, a Certified Personal Trainer with the National Strength and Conditioning Association NSCA and the Canadian Association of Fitness Professionals CanFitPro. He is the co-author of *Fit for the LOVE of It* (c) 2002 and *the Miracle of Health* (c) 2009 John Wiley (hardcover) & (c) 2015 Harper Collins (for your iPad or smartphone) and has lectured in Canada, the USA, the Caribbean, the UK and Europe. He's been the invited guest on over 400 TV and radio shows from ABC 20/20, Canada CTV AM, Breakfast TV to Magic Sunday Drum FM in Texas.

Want to add value to your patient experience? There is an avalanche of evidence demonstrating the connection between your patient's oral health and modern lifestyle habits: lack of sleep, shift work, poorly managed stress, overeating, and sedentary living. A recent article in Dentistry Today reported that patients appreciate the dental health professional who sees the bigger picture and truly understands the relationship between the body, mind and mouth.

Emerging research catapults inflammation into the ring as a key player in many systemic and oral diseases. Periodontal disease is one of the major sources of chronic inflammation that adversely influences the entire body. Stop the deadly cascade with specific dental & lifestyle solutions guaranteed to change your patient's health destiny. This fact filled and inspirational presentation is a ‘call to arms’ against inflammation – “let's douse the flames!” And in the process:

- Learn in a fun environment and grow personally & professionally
- Expand your knowledge of the BODY-MOUTH connection
- Understand why certain patients don’t respond well to your hygiene programs
- Recognize the destructive INFLAMMATORY CASCADE in your patients
- Make the connection between diabetes, insulin resistance, poor sleep habits & inflammation
- Discover how visceral fat behaves like an active organ causing havoc in the body & mouth
- Learn how your patient’s bacterial flora changes as they gain weight
- Identify 7 KEY foods & lifestyle habits that contribute to inflammation - EAT THIS NOT THAT!
- Learn which exercises best fight inflammation in your body (“what happens anywhere happens everywhere”)
- Create a circle of influence with allied health professionals (RMT's, DC's, RD and CPT's) and create major referrals
- Learn how tooth whitening can help boost patient self-esteem & other self-care habits
- And learn insider secrets to dropping that last few pounds & become a role model of optimal health for your dental team and, of course, your patients
If Disney Ran Your Dental Practice
7 Things You Would Do Differently

8:30 AM — 4:00 PM
6 CE CREDITS
Chase Center on the Riverfront
Wilmington, Delaware

Nate Booth, DDS

363,000 people visit Disney theme parks each day. Since 1991, Disney’s stock price is up almost 1000%. For over 75 years, Walt Disney’s vision and imagination have brought happiness to children of all ages around the world. This spectacular success is not an accident. The Walt Disney Company consistently does 7 things that all businesses can emulate.

When it comes right down to it, all business is show business – even your dental practice. I realize this concept sounds strange to most dentists. If Disney ran your dental practice, you would do 7 things differently. You would:

1. Create a Clear and Compelling Practice Vision
2. Realize that Entertainment is Everywhere
3. Create a Powerful Brand
4. Establish an Experience Theme, Standards and Delivery Systems
5. Tell Emotional Stories Well
6. Implement, Implement, Implement
7. Harness the Power of Loyalty

In Nate’s entertaining and practical program, your entire team will learn how Disney achieves their spectacular success. Your practice will never be the same.

Testimonials:

“Dr. Nate Booth gave two breakout sessions of If Disney Ran Your Practice at our annual convention. We had 1000 people register for his programs, and they were glad they did. The audiences loved his practical content, high energy and humor. As a meeting planner, Dr. Booth was very easy to work with.”

Shelly Fava, Denver Dental Society

“You not only entertained, educated and energized over 500 dentists, spouses and dental staff members for over four hours, you successfully complimented our theme and set the tone for a terrific weekend.”

Dr. Julian Fair, South Carolina Dental Association

“Dr. Booth was very flexible and easy to work with. I was flooded with positive comments from our members. We would definitely recommend him to any organization looking for a great speaker.”

Sharon Scronic, Arizona Dental Association

“I don’t care how great a clinician you are or how nice and caring a person you are – if you don’t fully understand and practice what Nate so entertainingly teaches, you’re not even close to being as successful as you deserve to be! Thanks for the great info Nate!”

Rod Kurthy, DMD

The Reservoir Restorative Revolution:
Bioactive Material and Its Place in Dentistry

8:30 AM — 4:00 PM
6 CE CREDITS
Chase Center on the Riverfront
Wilmington, Delaware

John C. Comisi, DDS

For years the dental profession has been struggling with providing effective long-term preventive and direct restorative solutions for our patients. The evidence is mounting that we may have been “barking up the wrong tree” in our efforts.

There have been many “bioactive” materials introduced, and there is a real need for the dental care provider to understand why and how to use these materials, and why they are important in patient care now and in the future.

Course Objectives:

1. Explore the remin-demin process of the oral cavity, caries progression and what we need to positively influence the health of the oral cavity
2. Review the current stat of the dental restorative process: why they succeed and why they fail
3. Gain a true understanding of the current definition of bioactivity and the materials and mechanisms that can help you and your patients in daily dental care

About Dr. John C. Comisi

Dr. Comisi has been in private practice in Ithaca, NY since 1983, and is President and CEO of Dental Care with a Difference®, PC, where “Knowledge Brings Health”® and a Clinical Instructor in Dentistry at the University of Rochester School of Medicine and Dentistry. A graduate of Northwestern University Dental School, he received his Bachelor of Science in Biology at Fordham University. He is a respected Key Opinion Leader, author, speaker and consultant who contributes regularly to the dental literature in such Journals as General Dentistry, Compendium of Continuing Dental Education, Dental Product Shopper, Mentor Magazine, Dental Products Report, Dental Economics, CE Cosmetic Dentistry, Oral Health Journal, Dentistry Today and Inside Dentistry. He is an Editorial Board Member for Dental Product Shopper magazine, an Editorial Advisory Board of Dental Products Report and a member of the Continuing Education Advisory Board of Dental Learning and a member of the Scientific Advisory Board for Dental Biomaterials Research and Science Group. He is a member of the National Dental Practice Based Research Network (NDPBRN) and the International and American Association of Dental Research. Dr. Comisi is a Master of the Academy of General Dentistry, and holds Fellowships in the Academy of Dentistry International, the American College of Dentists, the Pierre Fauchard Academy and the International and College of Dentists. His practical approach to the trends in dentistry has made him a much sought after speaker, author and consultant in the dental industry. He brings a passion and a knowledge base that is refreshing and sincere.

About Dr. Nate Booth

Dr. Nate Booth received his DDS degree from the University of Nebraska in 1971 and was in private dental practice for ten years. Nate then earned a Masters Degree in counseling from the same school in 1983. From 1987 to 1997, he worked closely with Anthony Robbins in the creation and delivery of corporate training programs. Dr. Booth has done hundreds of keynote presentations, seminars and workshops to dental audiences around the world. He is the author or co-author of the books How to Build Your Aesthetic Practice, Unleashing the Power of Dentistry, 555 Ways to Reward Your Dental Team, Thriving on Change and The Diamond Touch. For five years, Nate wrote a top-rated column for Dental Economics magazine.
Avoid Liability: Know Your Patients’ Medications and Their Impact on Dental Treatment

8:30 AM — 4:00 PM
6 CE CREDITS
Chase Center on the Riverfront
Wilmington, Delaware

Harold L. Crossley, DDS

Your patients are living longer thanks to their medications but many of the physician-prescribed medications used by your patients have dental implications and side effects affecting your treatment plan. Some of these medications are the drugs of choice of “doctor shoppers.” Some medications are more likely to cause violent behavior and others can cause a “scalded mouth syndrome” and in fact, others may cause sexual dysfunction. Should I use caution when prescribing NSAIDs with antihypertensives? Is antibiotic prophylaxis required for patients with orthopedic prostheses? And lastly, should I use caution with the patient using “medical marijuana?”

This presentation includes the indications, contraindications, and side effects of some of the more common physician-prescribed medications. These medications represent 30% of all prescriptions taken by your dental patients and familiarity with these drugs will provide the dental practitioner with a better appreciation for the health profile of your dental patient.

At the conclusion of this course, the attendees will know:

- Prescription, OTC medications, and foods that could adversely interact with dental drugs
- Why your patient is taking their medications
- What oral side effects may be caused by these medications
- Accepted uses and dental implications of “medical marijuana”
- Maximum doses for commonly prescribed pain medications
- When not to prescribe NSAIDs
- How to manage patients taking some of the newer anticoagulant medications
- How to combine analgesics to maximize their effects
- Current recommendations for SBE and orthopedic prosthesis prophylaxis

About Dr. Harold L. Crossley
Harold L. Crossley, DDS, M.S., Ph.D. is Professor Emeritus at the University of Maryland Dental School. A native of Rhode Island, Dr. Crossley received a Bachelor of Science degree in Pharmacy from the University of Rhode Island in 1964. He later was awarded the Master of Science (1970) and Doctorate degrees (1979) in Pharmacology. The University of Maryland Dental School in Baltimore awarded Dr. Crossley the DDS degree in 1980. The liaison between the classroom and his part-time dental practice produced a practical approach to understanding the pharmacology of drugs used in the dental office. Dr. Crossley has co-authored a number of articles and four books dealing with a variety of topics within the field of pharmacology. Other areas of expertise include the pharmacology of street drugs and chemical dependency. He was the recipient of the 2008 Gordon Christensen Lecturer Recognition award presented by the Chicago Dental Society and the recipient of the 2012 Award of Distinction presented by the Academy of Dentistry International for his efforts in Continuing Dental Education. He has been a consultant for the United States DEA and other law enforcement agencies since 1974. Drawing on this unique background, Dr. Crossley has become nationally and internationally recognized as an expert on street drugs and chemical dependency as well as the clinical pharmacology of dental drugs.

Seeking Interdisciplinary Excellence
8:30 AM — 4:00 PM
6 CE CREDITS
Chase Center on the Riverfront
Wilmington, Delaware

Frank Celenza, DDS

Interdisciplinary dentistry is proving to be the most effective means by which we can deliver the highest level of service to our patients. Whether addressing specific cosmetic concerns or providing advanced rehabilitation and restoration, through coordinated efforts at the specialist level, we can raise our game and provide a better end result.

This seminar will communicate to orthodontists, periodontists, prosthodontists, oral surgeons, and all dentists through the demonstration of carefully documented clinical cases and specific literature citing. Areas in which the various specialists can work in concert to better serve our patients will be illustrated. Examples such as the use of forced eruption, coordination of gingival margins, implant placement and utilization in tooth movement will be examined.

Course Objectives:

- Gain an appreciation for the physiology of tooth movement
- Gain an appreciation for the periodontal benefits of tooth position
- Gain an appreciation for the implementation of adjunctive orthodontic modalities for prosthetic benefit
- Gain an understanding of how orthodontics can interact with implants

About Dr. Frank Celenza
Dr. Celenza is unique in his qualifications in that he is a dual-certified specialist and is active in both the practice and teaching of periodontics and orthodontics. He received his periodontal certificate from the University of Pennsylvania in 1986 and his orthodontic certificate from New York University in 1988. He has authored numerous publications in dental literature; his pioneering work regarding the use of implants in conjunction with orthodontics is groundbreaking and has been extensively published. He has been involved in postgraduate teaching for over 20 years, is a recognized speaker nationally and internationally, and maintains a private practice in Manhattan. Dr. Celenza is a past president of the Northeastern Society of Periodontists. Dr. Celenza comes from a long line of distinguished dental practitioners. His father, Dr. Frank V. Celenza, was a world-renowned prosthodontist who made many inroads into international teaching and research while maintaining a large practice in Manhattan. Dr. Celenza’s brother, Vincent, now heads that practice and is active in teaching, and he was also a past president of the Northeastern Gnathological Society. Dr. Celenza lives in New Jersey and has four children. He pursues other passions outside of dentistry, which include sports car racing (in which he is a two-time National Champion), competitive cycling (frequently commuting to work by bike), writing, and computer technology (which is immediately apparent upon entering his office).
Course Objectives:

Participants will be able to discuss the effects of chronic stress on work performance, and risk for depression, anxiety, heart disease and other diseases.

Participants will be able to describe how meditation, physical activity, rest, music, and other lifestyle factors can positively impact physical and emotional health.

Participants will be able to identify strategies for reducing fatigue, improving sleep and increasing emotional well-being.

Participants will be able to describe three ways to improve their nutrition.

About Dr. Tieraona Low Dog

Tieraona Low Dog, MD’s exploration of natural medicine and its role in modern health care began more than 35 years ago as she studied midwifery, herbal medicine, massage therapy and martial arts before earning her medical degree from the University of New Mexico School of Medicine. She currently serves as the Fellowship Director for the Academy of Integrative Health and Medicine. This two-year fellowship is the first integrative interdisciplinary program in the world committed to training teams of medical doctors, dentists, pharmacists, nursing professionals, physician’s assistants, dietitians, acupuncturists, naturopathic and chiropractic physicians in integrative health and medicine. Dr. Low Dog is a founding member of the American Board of Physician Specialties, American Board of Integrative Medicine and the Academy of Women’s Health. An internationally recognized expert in the fields of integrative medicine, dietary supplements and women’s health, Dr. Low Dog was appointed by President Bill Clinton to the White House Commission on Complementary and Alternative Medicine Policy, served as the elected Chair of the US Pharmacopeia Dietary Supplements and Botanicals Expert Information Panel, and was appointed to the Scientific Advisory Council for the National Center for Complementary and Alternative Medicine. She previously served as the Education/Fellowship Director at the University of Arizona Center for Integrative Medicine (2005-2014), where she oversaw all aspects of the training for more than 600 physicians and nurse practitioners in integrative medicine. She has been an invited speaker to more than 550 scientific/medical conferences, published 40 peer-reviewed articles, written 20 chapters for medical textbooks, and has authored five books, including three National Geographic books, *Fortify Your Life, Healthy at Home and Life is Your Best Medicine*. She has appeared on CNN, ABC’s 20/20, is a frequent guest on the Dr. Oz show and NPR’s *The People’s Pharmacy*. 

TOP TEN MEMBERSHIP BENEFITS

American Dental Association (ADA) and Delaware State Dental Society (DSDS)

A COLLECTIVE AND POWERFUL VOICE – Nationally and in Delaware – Nationally representing every dentist, Fighting for laws that protect our practice, Protecting the public’s oral health, and Locally a DSDS lobbyist in Dover representing our issues.

MEMBER SERVICES – The ADA offers a Member Service call center, “Find-a-Dentist” for patients to find you, and the ADA Library for Resources and Marketing Resources. DSDS also offers “Find a Dentist” for patients to find you; Classified Services and Employment Opportunity listings on the DSDS website.

WEBSITES – The ada.org and delawarestatedentalsociety.org websites are always available and offer members a massive amount of information both nationally and locally. Check out what you have been missing!

ANNUAL SESSIONS – ADA Annual Meeting held in the fall at varying locations across the country and the Delaware State Dental Society Annual Session held locally in May, both offer members top national speakers with an opportunity for Education and Camaraderie!

EDUCATION – ADA offers a wide variety of topics with online CE resources. DSDS offers one of the finest CE Programs with five courses per year to meet the Delaware State CE requirement. DSDS offers Discounted Tuition for CE courses; General Membership meetings and Local Kent/Sussex meetings in all 3 counties.

PUBLICATIONS – ADA Journal of the American Dental Association (JA DA), ADA News, DSDS Newsletter and Monthly Email Blasts from the current President of DSDS.

“GIVE KIDS A SMILE” – ADA markets the month of February for this event. DSDS promotes two locations across the state where we treat and educate the underserved children of Delaware.

PUBLIC COMMUNICATIONS – ADA and DSDS offers resources to the public through their respective websites which help to guide and educate the public.

COST OF MEMBERSHIP – ADA and DSDS offer discounted membership for the new dentist and DSDS can assist in helping members with their dues in cases of financial hardship and disability.

MISSION: The mission of the Delaware State Dental Society is to support its members’ ability to practice through education and advocacy. Intimately involved in this process is the advancement of quality oral health care for the public.
